EDUCATION

United Institute of Technology

Bachelor of Science - AI/ML; GPA: 7.5

Gandhinagar, India

September 2022 - April 2026

- **Courses:** Artificial Intelligence, Machine Learning, Networking, Cloud Computing, Databases, Operating Systems, Data Structures

SKILLS SUMMARY

Languages: Python, SQL, R, C++, Rust

AI/ML: Neural Networks, Fine-tuning, LLM, RAG, CNN, RNN, Transformers

Frameworks: TensorFlow, PyTorch, Keras, Scikit-learn, Langchain, Hugging Face, FAST API

Data Tools: Power BI, Tableau, RStudio, Excel, Jupyter, WEKA, Pandas

Databases: PostgreSQL, MySQL, ChromaDB, Vector DB, Data Warehouse

DevOps: Docker, GIT, AWS, Azure, Apache HTTP Server, Postman

Soft Skills: Leadership, Communication, Critical Thinking, Problem Solving, Team Work, Time Management

EXPERIENCE

Rysyth technologies

Applied AI Engineer

Ahemdabad,Hybrid

July 2025 - Present

- Building end-to-end AI powered application for clients based on their needs.

Zensible

AI Engineer

Bangalore, Hybrid

April 2025 - July 2025

- Built AI applications delivering business value; Created HRMS bot for HR automation and employee chat-based queries.

Amaze Inc

AI Consultant

Bangalore, On-Site

January 2025 - April 2025

- Transformed complex datasets into strategic insights and architected custom AI solutions for data-driven decisions.

Brand Shark

AI Engineer Intern

Bangalore, On-Site

November 2024 - January 2025

- Analyzed and visualized data, delivered actionable insights to support business decisions.

UIT, Gandhinagar

Assitant Principal Investigator

Gandhinagar, India

October 2023 - March 2024

- Conducted research for project development and monitored progress to ensure timely completion within budget.

PROJECTS

Medi: Medical chatbot and document management backend system with Azure cloud infrastructure, API services, and intelligent agents for medical Q&A and document handling.

SmartAssist: Production-ready RAG system on AWS using Amazon Bedrock, OpenSearch, and FastAPI for intelligent document-based Q&A capabilities.

HR AI: Full-stack HR management system with AI chatbot assistant, built with FastAPI and React for leave management, attendance corrections, and payslip handling.

Text Generation using RNN: Character-level RNN model trained on Shakespeare's complete works to generate text in his literary style using deep learning sequence modeling.

The-Orchestrator: MCP marketplace platform for AI agents enabling discovery, integration, and orchestration of specialized AI agents with standardized interfaces.

CERTIFICATIONS

LLM Applications With Prompt Engineering - NVIDIA (October 2025)

AI Automation: Build LLM Apps & AI-Agents with n8n & API's - Udemy (July 2025)

AWS AI Practitioner - Udemy (2025)

Azure AI Fundamentals - Udemy (October 2025)

Docker - LinkedIn Learning Community (August 2025)

Supervised Machine Learning: Regression and Classification - DeepLearning.AI (June 2024)

Data Processing and Manipulation - University of Colorado Boulder (June 2024)

Ethical Hacking - NPTEL (October 2023)
