ABOUT

Applied AI Engineer specializing in developing and deploying end-to-end AI/ML and custom solutions. Expertise includes LLMs (RAG, Fine-tuning), Deep Learning (CNN, RNN, Transformers), and cloud platforms like AWS and Azure. Proficient in key agent and orchestration frameworks, including LangChain, LlamaIndex, Multiple Agent Development Kit (ADK), and CrewAI. Proven track record of delivering high-impact systems, such as HR automation bots and production-ready RAG Q&A systems, utilizing Python and FastAPI for scalable AI agent orchestration.

EDUCATION

United Institute of Technology

Bachelor of Science - AI/ML; GPA: 7.5

Gandhinagar, India

September 2022 - April 2026

o **Courses:** Artificial Intelligence, Machine Learning, Networking, Cloud Computing, Databases, Operating Systems, Data Structures

SKILLS SUMMARY

Languages: Python, SQL, R, C++, Rust

AI/ML: Neural Networks, Fine-tuning, LLM, RAG, CNN, RNN, Transformers

Frameworks: TensorFlow, PyTorch, Keras, Scikit-learn, Langchain, Hugging Face, FAST API

Data Tools: Power BI, Tableau, RStudio, Excel, Jupyter, WEKA, Pandas

Databases: PostgreSQL, MySQL, ChromaDB, Vector DB, Data Warehouse

DevOps: Docker, GIT, AWS, Azure, Apache HTTP Server, Postman

Soft Skills: Leadership, Communication, Critical Thinking, Problem Solving, Team Work, Time Management

EXPERIENCE

Rysyth technologies

Applied AI Engineer

o Building end-to-end AI powered application for clients based on their needs.

Ahemdabad,Hybrid

July 2025 - Present

Zensible

AI Engineer

o Built AI applications delivering business value; Created HRMS bot for HR automation and employee chat-based queries.

Bangalore, Hybrid

April 2025 - July 2025

Amaze Inc

AI Consultant

o Transformed complex datasets into strategic insights and architected custom AI solutions for data-driven decisions.

Bangalore, On-Site

January 2025 - April 2025

Brand Shark

AI Engineer Intern

o Analyzed and visualized data, delivered actionable insights to support business decisions.

Bangalore, On-Site

November 2024 - January 2025

UIT, Gandhinagar

Assitant Principal Investigator

o Conducted research for project development and monitored progress to ensure timely completion within budget.

Gandhinagar, India

October 2023 - March 2024

PROJECTS

Medi: Medical chatbot and document management backend system with Azure cloud infrastructure, API services, and intelligent agents for medical Q&A and document handling.

SmartAssist: Production-ready RAG system on AWS using Amazon Bedrock, OpenSearch, and FastAPI for intelligent document-based Q&A capabilities.

HR AI: Full-stack HR management system with AI chatbot assistant, built with FastAPI and React for leave management, attendance corrections, and payslip handling.

Text Generation using RNN: Character-level RNN model trained on Shakespeare's complete works to generate text in his literary style using deep learning sequence modeling.

The-Orchestrator: MCP marketplace platform for AI agents enabling discovery, integration, and orchestration of specialized AI agents with standardized interfaces.

CERTIFICATIONS

LLM Applications With Prompt Engineering - NVIDIA (October 2025)

AI Automation: Build LLM Apps & AI-Agents with n8n & API's - Udemy (July 2025)

AWS AI Practitioner - Udemy (2025)

Azure AI Fundamentals - Udemy (October 2025)

Docker - LinkedIn Learning Community (August 2025)

Supervised Machine Learning: Regression and Classification - DeepLearning.AI (June 2024)

Data Processing and Manipulation - University of Colorado Boulder (June 2024)

Ethical Hacking - NPTEL (October 2023)
